

## CP4 HPFP Metering Valve Upgrade

### PART 1 - This only applies to the valves with 90° plug:

On all metering valve upgrades remove the purple plastic insert from the standard plug.

This will allow the plug to fit the new metering valve.

Please note this will not fit like OEM.

### PART 2 - Linearization:

#### 90° PLUG

	(Setpoint (Flow) Of the rail pressure control)/mA									
mm3/s	-1950.0	-1940.0	-1390.0	0.0	3060.0	12780.0	32220.0	42000.0	43610.0	43660.0
	1900.00	1810.00	1710.00	1610.00	1500.00	1300.00	1000.00	750.00	500.00	400.00

#### STRAIGHT PLUG

	(compensation value					the adaptation the Metering)/mA				
mm3/s	-4000.0	0.0	8100.0	18970.0	29600.0	33300.0	39080.0	42680.0	50370.0	51570.0
	1900.00	1650.00	1400.00	1200.00	1050.00	1000.00	900.00	800.00	600.00	400.00
